

WaterCrest-HYDRO-160

***The Future Of
Water Treatment!***

Uses No Electricity

Requires No Salt

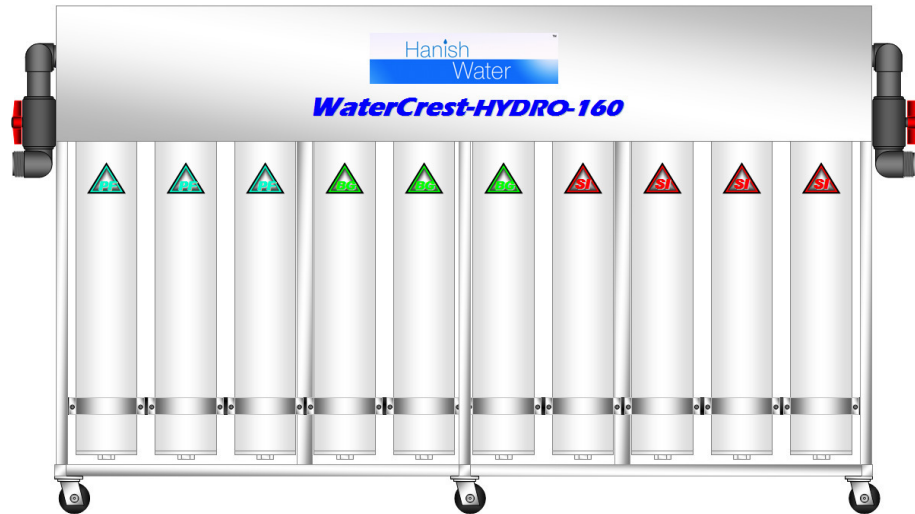

Has No Moving Parts

Wastes No Water

Uses No Chemicals

Removes Bacteria, Virus, Cysts

Treats Water For Scale

Hanish Water Commercial, Industrial High Purity creates Physical Water Processing Systems that cannot be matched on any level for filtration capabilities, ease of maintenance, and overall efficiency.

HW-520-PF-BG-SI-WC-HYDRO-160

For years water softeners, reverse osmosis, and ultrafiltration systems have been the only means of reliably treating water in commercial applications. These are expensive, wasteful, and out dated technologies that require monthly maintenance and care.

Recent scientific developments have made it possible to now treat the water at full line inexpensively, efficiently and with no monthly maintenance. These technologies have all come together to form the **WaterCrest-HYDRO** full line Physical Water Processing System by **Hanish Water**.

Unlike all other water treatment systems on the market today, the **WaterCrest** treats water for tastes, odors, chlorine and hardness with **NO** electricity, **NO** Drain line, **NO** wasted water, **NO** moving parts, and **NO** salt.

Hanish Water TM

MODE: HW-640-PF-BG-SI-WC-HYDRO-160	
DIMENSIONS: 58 H, 32 D, 84 W"	
VESSEL SIZES: 20-6x40"	
VESSEL VOLUMES: 80 Gallons	
DRY WEIGHT: 500 Lbs.	
SERVICE WEIGHT: 1,166 Lbs.	
CONNECTIONS: 2" IN/OUT	

OPERATING SPECIFICATIONS

Minimum Operating Pressure	20 psi
Maximum Operating Pressure	100 psi
Test Pressure	160 psi
Maximum Operating Temperature	100 F
Minimum Operating Temperature	40 F
Maximum Flow Rate	160 gpm
Minimum Flow Rate	5 gpm
Silica	1 mg/L
Copper	1.3 mg/L
Iron	.3 mg/L
Ph	6.8-8

DO NOT EXCEED SPECIFICATIONS

Vessels approved for water filtration. Other applications must be approved by the manufacturer. Do not use for pneumatic or hydropneumatic applications.

Waukesha, Wisconsin, U.S.A.
